

A FABULOUS REGION at the centre of the future

THE PARDUBICE REGION

offers a unique mix of opportunities. Work, innovate, invest, relax and do business all in one place. A fabulous region for a fabulous life.

The Pardubice region – A great place to live, work and invest

The Pardubice region is a place full of opportunity. It is intersected by the most frequently used railway in the Czech Republic as well as other significant transport communications. The schools in the Pardubice region offer education in promising fields that have a positive future. Successful companies provide students with the needed experience, employ skilful graduates and give them the possibility to build a career. The Pardubice region is also a pleasant place to live thanks to its diverse nature and considerable relaxation options. This unique mix further results in a lively business environment, which is quickly developing.

Why invest in the Pardubice region

Investment potential

The Pardubice region repeatedly scores big on prestigious ladders (ex. fDi Magazine) and arouses the interest investors. Both small and large projects come to life here, within the business environment or in cooperation with academic workplaces, such as The Centre for Technology and Knowledge Transfer (CTTZ) – University of Pardubice.

Perspective schools

An array of amazing schools take residence in the Pardubice region – several of these schools are unique within the Czech Republic. Our pride has become the fields of the future: intelligent chemistry for industrial and bio-medical application, advanced materials based on textile structures, competitive transportation, machinery or the advanced application of electrical engineering and informatics. We connect theoretical study with practical experience, which is why our graduates have doors opened to them on the work market. The practicality of the study is also proved by the research awards that the University of Pardubice students and academics receive regularly.

Innovative branches

Interested in investing? Take advantage of the lively business industry and make your choice: you can have your share in research, in a successful family company and in multinational corporations. Conquer the fields of the future: chemistry, transportation or digital technology. Our region excels in these disciplines and provides a great education as well as career opportunities.

Transport accessibility

A connection to the rest of the world is guaranteed: mainly by the railway tracks, links to the D11 highway, an international airport and other significant transport hubs. The Pardubice region enables you to always be in the centre of the action.
